Risk Integrated Delivers Enterprise Grading System to Leading International Real-Estate Bank

Risk Integrated has successfully completed delivery of the Specialized Finance System for Commercial Real Estate (SFS-CRE) to a leading player in the global commercial real estate market. The SFS-CRE, Risk Integrated's enterprise-level credit grading system, provides lenders and managers in all branches of the bank (London, New York, Tokyo, Stuttgart, etc.) with web-based Advanced-Level Basel II-compliant risk metrics for their entire global portfolio of investment and development property deals.
